PUBLIC NOTICE

2020 Chip Seal Road Maintenance

The Chehalis Tribe and the Confederated Construction Company, LLC is partnering with PaKaPa Inc. to perform chip seals on **Niederman Road and Howanut Road**.

The work is scheduled over a five day period from **September 7th to September 11th, 2020**.

Chip seals are an effective way of preserving pavement condition and pavement life. They seal the pavement surface, and provide a new high traction riding and wearing surface.

During the chip sealing operation, delays to the traveling public will occur. Please observe all traffic control signs and drive slowly on the newly chip sealed surface.

***BE Prepared for Lane Closures and
Reduced Speeds!!!***

Some helpful tips:

1. If you happen to get a bit of the oil on your car, shoe, etc... rubbing with a citrus based cleaner with cloth will generally remove it.
2. A speed of 25 mph or less is recommended to lessen gravel spray from several days to weeks following the chip seal. This will save windshields and paint chips.
3. Delays are generally short. However, a road / lane is usually closed for a period of 30 minutes while oil and rock are applied, and then cured/set. ***If it's an emergency and you need to get out of your driveway, please contact one of the ground crew and they will guide you out as quickly and safely and possible.***

Please refer any questions or concerns to the project coordinator, Brian von Clück, at 360-709-1862 or on his cell phone at 253-678-5557.
