

BUSINESS DEVELOPMENT CLASS

Lets Break Down Your Costs

In our next class, we're diving into product costing! Bring your business idea and the items it takes to make your product—whether it's jewelry, food, crafts, or anything else. We'll break it all down together. We'll figure out how many items you can produce from each material and calculate your actual cost per product. This will help you better understand your pricing, avoid undercharging, and plan for scaling. Bring in what you buy and what you make—and let's work it out step by step

When: October 28th
