

Dear Community Members,

The Chehalis Tribal Wellness Center would like to inform you that Dr. Chau has made the decision not to return to her provider position following her maternity leave.

We fully support her decision to spend this special time with her family and wish Dr. Chau and her family all the very best.

We sincerely appreciate the compassionate care Dr. Chau has provided to our patients and are grateful for the contributions she has made to our Wellness Center.

Please be assured that your healthcare remains our highest priority.

Our medical team has been caring for Dr. Chau's patients during her leave and will continue to provide uninterrupted medical care.

If you were a patient of Dr. Chau, you will continue to receive care from one of our experienced providers while we recruit an additional full-time physician to join our team.

If you already have an upcoming appointment, our staff will contact you if any scheduling changes are necessary. Otherwise, please continue to keep your appointments as planned.

If you have any questions or would like to discuss your ongoing care, please contact our Patient Access Team at **(306) 273-5504**.

We appreciate the trust you place in the Chehalis Tribal Wellness Center and remain committed to providing you with high-quality, compassionate care.

Sincerely,

Kimberly Coombs

Health Director

Chehalis Tribal Wellness Center
