

ANDERSON ROAD CONSTRUCTION

SCHEDULE
AUGUST - OCTOBER

The Planning Department has worked on improvements to Anderson Road between the intersection of Howanut/188th to Highway 12. The design work has been completed and construction is beginning.

Some of the key aspects of this project include:

- ❖ Grinding of road and repaving
- ❖ Extending main water line down to the store
- ❖ Burying all utilities including power and removal of power poles on the West side of the road
- ❖ Temporary speed reduction to 25 mph

Preliminary work has begun on the project, but the actual construction will begin on August 4, 2026.

There will be some minor delays while this work takes place and we ask for your patience during this process. This project will improve the longevity of the roadway.
